## Advice

Small Tree Farm partners Andrew Thamo & Christine Sharp are able to provide advice based on long experience in tree planting matters and small rural property management. The scope extends beyond the current tree list to landscape design, salt tolerance, speciality sawlogs, fodder trees, etc.  
Rates: \$50/hr incl. travel.  
(weekends \$75/hour)

## Ordering Trees

Being a bare root nursery tree supply is only possible during winter dormancy - generally the period mid July - September. Orders are however accepted year round.

### Open Hours

By appointment (being a working farm it is hard to maintain regular office hours). Effort is made to respond to telephone messages, faxes and e-mails promptly.

### Enquiry

Telephone, fax and e-mail enquiries are welcome year round. However please be aware that we must sometimes draw a line between giving information about product and giving information about trees, tree farming, and establishment generally, when this can be properly considered Consultancy.

### Ordering Trees

Trees may be ordered by telephone, fax, e-mail or mail. Please remember to specify size/price class.

### Order Confirmation

A deposit of 10% is required to confirm your order. Written confirmation advice of your order and deposit will be provided.

### Freighting Orders

Your order can be freighted to you on overnight transport. Cost is 10% of order total, with a \$35 minimum charge. We will provide you with prior notice of despatch date.

### Picking Up Orders

By appointment only. Please give 24 hours notice.

### Will they fit?

You may be surprised how small a bundle your order fits into as bareroot trees nest together well and their branches can be tied up against their stems. Even 3 metre trees will fit into most cars when poked from the back through to in between the front seats.

### What to bring

The roots of bare rooted trees should not be allowed to dry out. It is a good idea to bring some hessian or other material that can be used to put damp over the roots. If transporting in open utilities or trailers please bring a tarpaulin to wrap the roots.

### Wrapped Roots

Bare roots can be glad-wrapped in damp shredded newspaper. This will protect trees for a number of days.

### Cash & Carry

A selection of our range is generally available for immediate sale at our despatch area from mid July to September. An appointment is necessary to ensure service.

**Conditions of Sale.** Whilst due care is taken no warranty, express or implied, is given as to the quality, nature, description of our products and any liability will be limited to the value of the products purchased. Risk in these products passes to the purchaser upon despatch.
